T400C

FEATURES AND FUNCTIONALITY

Designed for high speed scanning of documents up to A6 in size, Cognitronics have revitalised this scanning platform to include state of the art electronics and camera technology. Incorporating on board OCR and MICR Recognition, Image Capture, Audit Trail Printing and Multiple Pocket Sorting this system has been the cornerstone for Remittance Processing, Cheque Encoding and Voucher Processing applications for many years.

With the ability to scan up to 300 documents per minute under operational conditions this scanner is robust and one of the most reliable Document Scanning Systems available today.

Technical Specifications

- Auto Feeder (1000 document capacity)
- Front & Rear Image Capture
- MICR Read (E13B/CMC7)
- OCR Read (OCR A/B)

Options

- Ink Jet
- Stamp
- Encoder
- Upto 24 Pockets

Document Specifications

- Length: 124 to 239 mm
- Height: 70 to 108 mm
- Paper Weight: 50 to 120 gsm

Processing Speed

- 300 documents per minute
